		Sunday, 18th June				Monday, 19th June					Tuesday, 20th June					Wensday, 21st June		Thursday, 22nd June					Friday, 23rd June	
		9:20-10:40	11:00-12:40	14:20-16:00	16:15-17:40	9:00-10:40	11:00-12:40	14:20-16:00	16:15-18:00	18:20 - 20:00	9:00-10:40	11:00-12:40	14:20-16:00	16:15-18:00	18:20 - 20:00	9:00-10:40	11:00-12:40	9:00-10:40	11:00-12:40	14:20-16:00	16:15-18:00	18:20 - 20:00	8:00-10:40	11:00-11:40
IV-1	*Modelling and simulation of ion-conducting materials*					B5	B5	B5	B5	Poster session 1	B5	B5			presentation of Young Scientist and Mid Career Awards									
IV-2	*Advances in high spatial resolution probing of local heterogeneities in ion-conducting materials*					A4	A4	A4	A4	Poster session 1														
IV-3	*Interfacial processes and nanoionics*												B5	B5		B5	B5	B5	B5			Poster session 2		
IV-4	*Point defect chemistry of oxide materials*												A4	A4		A4	A4	A3	A3	A3	A3	Poster session 2	A3	A3
IV-5	*Transport in Morphologically Heterogeneous Porous Media: Advancing Characterization from In-Situ to In-Operando*					A5	A5	A5	A5	Poster session 1														
IV-6	*Synchrotron and Neutron techniques for the study of ion-conducting materials*					A6	A6	A6	A6	Poster session 1	A6	A6	A6											
IV-7	*Nuclear Magnetic Resonance in Solid State Ionics*																				A4	Poster session 2	A4	A4
